A Global Showcase of Innovation and Industry Connections

JAPAN BUILD Tokyo 2024 successfully took place from December 11 to 13 at Tokyo Big Sight, welcoming 34,059 visitors and 526 exhibitors. This premier exhibition gathered industry professionals from 15+ countries and regions—the UK, Italy, India, Indonesia, Australia, Canada, Singapore, Thailand, Norway, Vietnam, Malaysia, Latvia, South Korea, China, Taiwan, Hong Kong, and Japan—showcasing the latest advancements in building materials, housing equipment, and cutting-edge construction technologies.

This year introduced “Tile World,” an exciting new zone within the Building Material & Housing Equipment Expo, which highlighted innovative tile solutions for modern construction projects.

What's On

JAPAN BUILD Tokyo 2024, a three-day event, presented an outstanding showcase of the latest industry technologies and solutions from leading domestic and international companies. Attendees had the opportunity to see these innovations up close, giving them a first-hand glimpse into the latest industry advancements.

Furthermore, insightful conference sessions addressed key market trends, promoting meaningful discussions and insider knowledge from leading industry experts.

Media Partners

The event collaborated with leading media partners across construction, housing, and technology sectors. These partnerships amplified event coverage and contributed to the successful promotion of JAPAN BUILD Tokyo 2024 to a global audience.

Show Highlights

8 Specialised Shows

From advanced building materials and smart home technologies to sustainable construction practices and digital transformation tools, JAPAN BUILD Tokyo showcased the latest in the industry through 8 specialized shows.

Building Material & Housing Equipment Expo TOKYO

Showcases building materials and equipment for residential and commercial projects, supporting modern construction needs.

Smart Building Expo TOKYO

Features IoT, automation, and energy efficiency solutions for intelligent building management and enhanced operational efficiency.

Smart Home Expo TOKYO

Highlights innovative smart home devices, systems, and security solutions for enhanced convenience and safety.

Building Renovation Expo TOKYO

For renovation materials, equipment, and construction services for upgrading buildings and commercial facilities.

Real Estate Tech Expo TOKYO

Presents property management systems, real estate mediation solutions, and VR technology for virtual property tours.

Digital Construction Expo TOKYO

Focuses on digital tools, including BIM, drones, and 3D printing, transforming construction processes.

Retail Digital Transformation Expo TOKYO

Presents digital signage, unmanned store systems, e-commerce platforms, and customer experience technologies.

Green Building Expo TOKYO

Promotes sustainable building practices and eco-friendly solutions for environmentally responsible construction.

8th Building Material & Housing Equipment Expo TOKYO

Tile World

Tile World, the newest zone at JAPAN BUILD 2024, highlighted a diverse range of tile solutions, including porcelain, terracotta, mosaic, and large-format tiles. Exhibitors showcased products made from various materials such as ceramic, stone, glass, and eco-friendly options.

The zone attracted key decision-makers, including architects, designers, and developers, offering exhibitors exposure to the Asian building and housing market.

Exhibitors

- Tile Manufacturers
- Material Suppliers (Ceramic, Stone, Glass, Eco-friendly Materials)
- Innovators in Non-Ceramic Floor and Wall Coverings
- Technology and Equipment Suppliers for Tile Production
- Distributors and Importers of Tiles and Related Materials

Conference Highlights

The JAPAN BUILD Tokyo conference program featured industry-leading experts and advanced case studies. Real-time Japanese-English translation facilitated seamless communication and knowledge exchange among attendees.

Experts from Cool Automation, Daiki Yokoyama, Yaron Benvenisti, and Roy Muchtar, presented global trends in smart HVAC.

The conference also highlighted cross-industry collaboration through the Construction RX Consortium, featuring speakers from leading Japanese construction firms SHIMIZU, TAKENAKA, KAJIMA, HMS, and SENSYN ROBOTICS. Lastly, Autodesk's Tushar Nath explored digital transformation in construction, focusing on the GAMUDA project.

HEAR FROM OUR EXHIBITORS

“

We've had a lot of construction design professionals at all levels come through to our stand and actually have some great conversations, which have led to further discussions beyond the event.”

- Revizto Pty Ltd (Australia)

“

So the Japanese market is an attractive place, and I think we can expand it further if we localize it well and make it work. I'm looking at it very positively.”

- Meissa (South Korea)

“

It's a good show with many potential customers. Over the past two days, and even today, we've had very successful, wonderful business negotiations with some of them at the booth.”

- Kejian Polymer Materials (China)
